

# Building a Healthier Tomorrow

## Improving patient access, services, security and technology.

FirstLight Health System is currently making progress in the expansion of its main campus in Mora. The project will enable the hospital and clinic to accommodate continued growth in surrounding communities, provide additional patient services, ensure first-rate security, upgrade technology for the most advanced patient care, and continue to exceed quality goals.

## Are we there yet?

While any construction project can experience shifts to the timeline, here's what we're on track to accomplish.

### Mid 2018 (Summer)

- Twenty-three (23) new state-of-the-art inpatient and birthing rooms 
- New space for rehab services
- New public dining and common areas 
- New meeting rooms for community gatherings 

### Late 2018 (Fall)

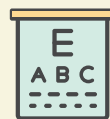

- Relocation of emergency department and helipad for improved access to emergency services
- Improved environment for chemotherapy and infusion therapy services 
- New community pharmacy 
- New entrance from Highway 65 entrance and expanded parking lots 

- Improvements to information technology and materials management

### Early 2019 (Spring)

- New gift shop 
- Relocation of FirstLight Eye Clinic to new facility within the Mora campus
- Improvements to the laboratory and diagnostic imaging

- Remodeled waiting areas
- New centralized entrance for enhanced security
